Report description:

2022 started with mixed results for travel in France. Uncertainties linked with the war in Ukraine, subsequent soaring inflation, a drop in purchasing power and persistent pandemic-related concerns have led French leisure tourists to remain cautious. The country is benefiting from domestic tourism, however, and from the return of loyal visitors from border European countries and the British.

Euromonitor International's Travel in France report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2017-2021, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2026 illustrate how the market is set to change.

Product coverage: Booking, Car Rental (Destination), In-Destination Spending, Lodging (Destination), Tourism Flows, Travel Modes.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
