Report description:

Wound care has experienced significant volatility in terms of demand in 2022. Whereas the fifth wave of COVID-19 led to a larger-scale lockdown and thus fewer social activities in the first quarter of the year, the subsequent relaxation of restrictions supported heightened demand. In particular, the removal of the mask mandate for sports activities can be seen as beneficial, as it has increased the participation of Hong Kong citizens in sports and outdoor activities, such as running, ball sports...
