### **Report description:**

Cooking ingredients and meals is gradually starting to recover from the negative impact brought on by the pandemic. Consumers are showing particular interest in such categories as sauces, dips and condiments, since after a long period of self-isolation it has become fashionable to go on picnics where such foods are commonplace. There has only been a moderate rise in food prices in Kazakhstan due to inflation as prices are regulated by the central anti-monopoly committee.

Euromonitor International's Cooking Ingredients and Meals in Kazakhstan report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2017-2021, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2026, clearly indicating how the market is expected to change.
