### **Report description:**

While baked goods in Algeria has continued to expand in retail volume sales terms in 2022, growth is set to be lower than in 2021. This is partly because Algerians are spending less time at home as more people go back to the office and resume their regular routines thanks to the easing of the pandemic and the ending of associated restrictions. With a significant and prolonged spike in inflation fuelled by factors related to the global recovery from COVID-19 and the fallout of Russia's invasion o...

Euromonitor International's Baked Goods in Algeria report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2017-2021, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2026, clearly indicating how the market is expected to change.
