Report description:

Despite unit price increases driven by inflation, driving up current value growth, volume sales of baked goods (both retail and foodservice) are expected to increase in 2022. Food prices are increasing due to the rise in the cost of oil and freight, and the war in Ukraine, which is having an impact on the supply chain. In addition, one of the most pressing environmental issues that is threatening food security is drought caused by climate change. The effect of drought is reduced agricultural pro...

Euromonitor International's Baked Goods in United Arab Emirates report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere.
