Report description:

Retail current value sales growth for cooking ingredients and meals in Argentina in 2022 will be significantly faster than that recorded in 2021. This is mainly because the country's longstanding problem with high inflation has been exacerbated by external factors linked to the global recovery from COVID-19 and Russia's invasion of Ukraine. Nonetheless, after having contracted in 2021, overall retail volume sales are set to grow, and three of the four main categories are projected to show improv...
