Report description:

Indonesia is on the path to recovery from the COVID-19 pandemic in 2022, with the situation being more stable compared to 2021. The economy has seen positive growth which has resulted in trade surplus in Indonesia, according to the Ministry of Industry and Trade. As a result, consumers are showing a more positive attitude towards consumption. For cooking ingredients and meals, growth is mainly being supported by the lifting of lockdown and social distancing measures and restrictions on travel. T...

Euromonitor International's Cooking Ingredients and Meals in Indonesia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere.
