### **Report description:**

Dairy products and alternatives in Bolivia is recording moderate sales value growth in 2022, and in many cases still struggle to return to pre-pandemic value levels. Sales growth is mainly driven by the recovery in consumption of dairy, and in particular of on-the-go products and individual portion packs, such as flavoured milk drinks with fruit juice and drinking yoghurt. This is largely due to most students restarting face-to-face classes as there are a number of small street kiosks near educa...

Euromonitor International's Dairy Products and Alternatives in Bolivia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere.
