Report description:

The Lithuanian dairy products and alternatives market is seeing stabilisation in 2022 after the disruptions caused by the COVID-19 crisis in the previous two years. However, the market has seen high rates of inflation, which is testing consumers' resilience and confidence. So far, consumption of dairy products has not been significantly affected by the rise in prices, at least in the major categories. Many dairy products are considered staples of the Lithuanian diet, while baby food has benefite...
