Report description:

Edible oils hugely benefitted from the pandemic lockdowns in 2020. With people spending more time at home, they did more home cooking, and edible oils registered doble-digit current value and volume growth. The picture is different in 2022, with society having reopened and people eating out more and doing less home cooking. This is expected to lead to negative retail volume growth in 2022. However, retail current value sales will continue to grow at a similar rate to last year (despite the stron...

Euromonitor International's Edible Oils in Israel report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2017-2021, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2026, clearly indicating how the market is expected to change.
