### **Report description:**

In 2022, retail value sales of edible oils are set to see double-digit growth. Inflationary pressures are a key contributor to this strong value increase, while volume sales are predicted to decline. Due to the high increase in retail prices, consumers have been thrifter while shopping and have been using cooking oils more efficiently, for instance by using spray-on dozers which help limit the overuse of edible oils. Some stockpiling was observed following the Russian invasion of Ukraine in Feb...

Euromonitor International's Edible Oils in Slovakia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2017-2021, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
