Report description:

Overall retail volume sales growth for staple foods in Algeria in 2022 is set to be weaker than that recorded in 2021. The slowdown is partly explained by increasing maturity, but also reflects the fact that Algerians are now cooking and eating at home less often as more people return to the office and resume their normal routines following the easing of the pandemic and the lifting of most restrictions previously imposed to curb the spread of COVID-19. With inflation soaring due to a combinatio...
