Report description:

Turkey Medical Device Market Analysis and Forecast 2019-2028

Turkey medical device market is expected to witness a growth rate of around 3.7% during the forecast period of 2022-2028. With a population of over 82 million, a well-established public and private healthcare system in Turkey is accessible and equitable to every resident. Turkey is one of the prominent markets for medical devices in the Middle East & North Africa (MENA) region. According to the data published by the Turkey Government, around 80% of Turkey's medical devices are imported, of which nearly 20% are imported from the US.

Strong macroeconomic growth, increasing disposable income, a rapidly growing population, government support through manufacturing and R&D incentives, and technological advancements in medical devices like smart medical devices are some of the key factors propelling the demand for medical devices in Turkey. In August 2021, Hungarian medical device manufacturer Medcor announced to invest US\$ 2.4 million for incubator production in the Turkish capital Ankara. This investment is one of the pioneering steps for economic and trade cooperation between Turkey and Hungary.
