Summary

Internet Access in Indonesia industry profile provides top-line qualitative and quantitative summary information including: market share, market size (value 2017-21, and forecast to 2026). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

- The internet access sector consists of the total Internet Service Revenue charged for the provision of narrowband and broadband Internet connections through both consumer and corporate channels. All revenues calculated are retail revenues exclusive of taxes. Only fixed communication is included; mobile connections are not considered.
- The Indonesian internet access market had total revenues of \$1,121.9 million in 2021, representing a compound annual growth rate (CAGR) of -5.1% between 2016 and 2021.
- Market volume increased with a CAGR of 12.1% between 2016 and 2021, to reach a total of 173.2 million internet users in 2021.
- Socio-economic disparities in Indonesia have been reflected in the unequal access to the internet seen in areas such as Sumatera, Java, and Bali islands. Such disparities have severely hindered growth in this market in recent years.
