Report description:

Baked goods are expected to register an increase in current value sales in 2022, though retail volume growth is expected to be more muted. However, unlike many other countries, Bolivia is not experiencing high inflation as a result of the energy crisis stemming from the war in Ukraine. This is because booming oil prices have protected the economy somewhat and while Russia and Ukraine together export more than a quarter of the world's wheat and this is leading to significant global cost rises for...

Euromonitor International's Baked Goods in Bolivia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2017-2021, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
