### **Report description:**

The stable performance of bread and pastries is generating marginal retail volume growth of baked goods as consumers adapt to higher prices of this everyday food. However, the rising price of wheat has led to significant price increases across all baked goods ranges leading to a surge in current value growth in 2022 compared to the previous year. Foodservice sales registered a second year of double-digit growth as the sector recovered from the pandemic.

Euromonitor International's Baked Goods in Bosnia and Herzegovina report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2017-2021, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2026, clearly indicating how the market is expected to change.

Product coverage: Bread, Cakes, Dessert Mixes, Dessert Pies and Tarts, Frozen Baked Goods, Pastries.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
