Report description:

Although all tiers of cities in China have experienced different levels of lockdowns in 2022, and consumption has been severely impacted, breakfast cereals is set to maintain positive current value growth due to the wellness trend, which developed rapidly during the pandemic. Muesli and granola is expected to see declines in both retail volume and current value terms, due to the shift of consumer preference and the end to significant advertising. However, hot cereals is set to continue to grow,...
