Report description:

After seeing a boost to its sales in 2020, malt-based hot drinks had already returned to its lower pre-pandemic volumes in retail in 2021, and decline is set to continue in 2022. Meanwhile, chocolate-based flavoured powder drinks is set to hold onto some of its pandemic gains even in 2022, despite shrinking in retail volume terms since 2020. Importantly, the retail volume performances in 2022 are expected to be much worse than the performances in retail current value terms, due to rising prices.
