Report description:

Processed fruit and vegetables are expected to register both a fall in current value and volume sales in 2022. Though unlike many other countries, Bolivia is not experiencing soaring inflation due the energy crises stemming from the war in Ukraine, as high oil prices benefit the Bolivian economy, supply disruptions impacted the sector in 2022, as most products are imported. Drought had an effect on the harvest of fruits such as peach and there was also disruption of supplies of canned mushrooms...

Euromonitor International's Processed Fruit and Vegetables in Bolivia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2017-2021, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2026, clearly indicating how the market is expected to change.
