Report description:

Processed fruit and vegetables are witnessing marginal retail volume growth in 2022, mainly due to modest growth in demand for frozen processed and shelf stable vegetables. These are the two most significant product ranges whose performance weighs on overall category performance. Rising inflation and supply chain costs have pushed up prices of processed fruit and vegetables underpinning strong retail value growth in 2022.

Euromonitor International's Processed Fruit and Vegetables in Bosnia and Herzegovina report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2017-2021, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2026, clearly indicating how the market is expected to change.

Product coverage: Frozen Processed Fruit and Vegetables, Shelf Stable Fruit and Vegetables.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
