Report description:

Staples are expected to register an increase in current value in 2022, though retail volume growth is expected to be minimal. However, unlike many other countries, Ecuador is not experiencing soaring inflation and the main factor contributing to the retail volume decline is that with society opening up again post pandemic lockdowns, consumers are eating in restaurants again. Though prices are rising, due to the energy crisis and supply issues caused by the war in Ukraine, they are not rising as...

Euromonitor International's Staple Foods in Ecuador report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2017-2021, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2026, clearly indicating how the market is expected to change.
