

**Low Light Imaging Market by Technology (CMOS and CCD), Application (Photography, Monitoring, Inspection & Detection, and Security & Surveillance), Vertical (Automotive, Consumer Electronics, Medical & Lifesciences) and Region - Global Forecast to 2027**

Market Report | 2022-11-23 | 209 pages | MarketsandMarkets

**AVAILABLE LICENSES:**

- Single User \$4950.00
- Multi User \$6650.00
- Corporate License \$8150.00
- Enterprise Site License \$10000.00

**Report description:**

The global low light imaging market is estimated at USD 12.1 billion in 2022 and is projected to reach USD 19.9 billion by 2027, registering a CAGR of 10.4% during the forecast period. One of the factors driving the growth of low light imaging market include increasing deployment of advanced driver-assistance systems (ADASs) in automobiles, and growing use of low light image sensors in advanced medical imaging applications.

The demand for low light image sensors is rising in various automobile devices, such as dash cameras, back cameras, rear video mirrors, and 360° surround-view camera systems. Driver monitoring systems, driver recording systems, night vision systems, eMirrors, blind-spot detection systems, cabin monitoring systems, surrounding view systems, and parking assistance systems are few systems where low light imaging can be used. These systems use low light image sensors to ensure the safety of drivers, offer parking assistance, carry out collision avoidance, and issue lane departure warnings.

"Security & surveillance application is the second-fastest growing segment of low light imaging market during forecasted period" The security and surveillance application are the second fastest segment during forecasted period. Low light imaging cameras are used in various residential, commercial, and industrial buildings for security and surveillance. The military and defense vertical also employ low light imaging cameras for security and surveillance applications. These cameras have proven to be useful for security and surveillance applications as they provide clear images even in low light environments. IP cameras, CCTV cameras, doorbell cameras, home security cameras, baby cameras, and body cameras are a few of the cameras in which low light imaging sensors are used for security and surveillance applications.

"Europe is the second fastest growing market for low light imaging market during the forecast period"

Germany is one of the major contributors to the growth of the low light imaging market in Europe, mainly due to the high demand for low light imaging devices from the automotive vertical in the country. The automotive, and industrial, commercial, and residential infrastructure verticals foster the growth of the European low light imaging market. Europe is home to many major automobile manufacturing companies, such as Porsche (Germany), BMW (Germany), Mercedes-Benz (Germany), Volvo (Sweden), and Audi (Germany), and automotive ADAS, being the major application area of low light imaging devices, positively impacts the market growth.

Breakdown of the profiles of primary participants:

- By Company Type: Tier 1 - 40%, Tier 2 - 30%, and Tier 3 - 30%
- By Designation: C-level Executives - 40%, Directors - 40%, and Others - 20%
- By Region: North America - 40%, Europe - 30%, Asia Pacific - 20%, and RoW - 10%

The low light imaging market is dominated by a few globally established players such as Sony Group (Japan), Samsung Electronics Co., Ltd. (South Korea), OMNIVISION Technologies (US), STMicroelectronics N.V. (Switzerland), ON Semiconductor Corporation (US), Panasonic Holdings Corporation (Japan), Canon Inc. (Japan), PixArt Imaging Inc. (Taiwan), Hamamatsu Photonics K.K. (Japan), and Teledyne Technologies Incorporated (US).

#### Research Coverage

The report segments the low light imaging market and forecasts its size, by value and volume, based on region (Asia Pacific, Europe, North America, and RoW), application (CMOS, CCD), application (photography, monitoring, inspection & detection, security & surveillance), vertical (consumer electronics, automotive, industrial, commercial & residential infrastructure, military & defense, medical & life sciences).

The report also provides a comprehensive review of market drivers, restraints, opportunities, and challenges in the low light imaging market. The report also covers qualitative aspects in addition to the quantitative aspects of these markets.

#### Key Benefits of Buying the Report:

The report will help the leaders/new entrants in this market with information on the closest approximations of the revenue numbers for the overall market and the sub-segments. This report will help stakeholders understand the competitive landscape and gain more insights to better position their businesses and plan suitable go-to-market strategies. The report also helps stakeholders understand the pulse of the low light imaging market and provides them information on key market drivers, restraints, challenges, and opportunities.

## 12 ADJACENT AND RELATED MARKETS 201

### 12.1 INTRODUCTION 201

### 12.2 LIMITATIONS 201

### 12.3 CAMERA MODULES MARKET, BY PIXEL 202

#### 12.3.1 UP TO 7 MP 202

12.3.1.1 Rising deployment of secondary cameras in smartphones to provide opportunities for market growth 202

#### 12.3.2 8 TO 13 MP 202

12.3.2.1 Innovations and advancements in image sensors to propel market growth 202

#### 12.3.3 ABOVE 13 MP 202

12.3.3.1 Increasing demand for high-quality and high-resolution images by end users to accelerate market growth 202

TABLE 149 CAMERA MODULES MARKET, BY PIXEL, 2017-2020 (USD MILLION) 203

TABLE 150 CAMERA MODULES MARKET, BY PIXEL, 2021-2026 (USD MILLION) 203

### 12.4 CAMERA MODULES MARKET, BY APPLICATION 204

TABLE 151 CAMERA MODULES MARKET, BY APPLICATION, 2017-2020 (USD MILLION) 204

TABLE 152 CAMERA MODULES MARKET, BY APPLICATION, 2021-2026 (USD MILLION) 204

#### 12.4.1 CONSUMER ELECTRONICS 205

12.4.1.1 Constant technological advancements leading to shorter replacement cycles of consumer electronics 205

#### 12.4.2 AUTOMOTIVE 205

12.4.2.1 Technological breakthroughs in automotive to spur market growth 205

#### 12.4.3 HEALTHCARE 205

12.4.3.1 Use of medical imaging systems in healthcare industry to augment market growth 205

#### 12.4.4 INDUSTRIAL 206

12.4.4.1 Digitalization across industries bolsters growth of camera modules market 206

#### 12.4.5 SECURITY AND SURVEILLANCE 206

12.4.5.1 Rising security concerns to boost utilization of security cameras 206

#### 12.4.6 AEROSPACE & DEFENSE 206

12.4.6.1 Effective use of camera modules in aerospace and defense applications ensures smooth performance 206

### 12.5 CAMERA MODULES MARKET, BY REGION 206

TABLE 153 CAMERA MODULES MARKET, BY REGION, 2017-2020 (USD MILLION) 207

TABLE 154 CAMERA MODULES MARKET, BY REGION, 2021-2026 (USD MILLION) 207

#### 12.5.1 NORTH AMERICA 207
