Report description:

Baked goods continued to register positive volume growth in both the retail and foodservice channels during 2022 as the key category of unpackaged leavened bread continued to benefit from rising demand. The particularly positive performance seen in foodservice volume terms can be attributed mainly to the relaxation and eventual removal of COVID-19 control measures, which was accompanied by a very strict approach to social distancing and home seclusion and the reopening of Georgia's borders to fo...

Euromonitor International's Baked Goods in Georgia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2017-2021, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
