Report description:

Personal accessories in the UK is set to continue to see current value growth in 2022, due to an increase in inbound tourism and a lack of COVID-19-related store closures and restrictions limiting local shoppers. Even though the average consumer is being affected by increases in the cost of living and high inflation, thus being more conscious of spending, the high-end luxury segment is pulling personal accessories to positive margins. Due to high increases in prices across the majority of catego...

Euromonitor International's Personal Accessories in United Kingdom report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (2017-2021), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, distribution or pricing issues.
