### **Report description:**

Denmark is gradually moving towards becoming a cashless society with its consumers embracing new mobile technologies that provide benefits in terms of hygiene and convenience, but which are threatening the use of plastic cards. The COVID-19 pandemic accelerated the move of spending locations towards the online space and via the growth of goods e-commerce and m-commerce. This includes a further shift to contactless card payments as well as the growth of mobile payments in physical stores. MobileP...
