Report description:

Retail volume sales of processed fruit and vegetables increased during 2022 as demand continued to increase across almost all categories. The main factor underpinning this positive performance is the rising demand for products that offer convenience as the lifestyles of busy urban professionals become increasingly hectic. As the impact of the COVID-19 pandemic receded, the reopening of all of Slovenia's schools and the return to working long hours in the office every day meant rising consumption...

Euromonitor International's Processed Fruit and Vegetables in Slovenia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2017-2021, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2026, clearly indicating how the market is expected to change.

Product coverage: Frozen Processed Fruit and Vegetables, Shelf Stable Fruit and Vegetables.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
