Report description:

In 2022, staple foods is expected to register a marginal decrease in retail volume terms with consumers reducing consumption in order to save money. Higher inflation has compromised disposable income and forced many consumers to reduce the quantity of staple foods purchased. Frozen staple foods are typically more expensive than fresh options and are also considered an unhealthier option by Uruguayans. As a consequence, retail volume sales of frozen processed vegetables, seafood and meat is expected...

Euromonitor International's Staple Foods in Uruguay report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2017-2021, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
