Report description:

KEY FINDINGS

The China air traffic management market growth is expected to progress at a CAGR of 5.08% during the forecast period, 2023-2030. One of the primary growth drivers is the increasing upgradation of infrastructure with the latest technologies.

MARKET INSIGHTS

In China, the Northern China Air Traffic Control Bureau's control tower is equipped with a state-of-the-art guiding system that can automatically identify potential collisions between runways and aircraft on the aprons. In addition, the control tower can, in conjunction with an airport's ground navigation system, assist pilots in landing or taking off in low visibility conditions. Furthermore, the construction of new airports is estimated to facilitate the creation of new routes, which will further contribute to market growth. In addition, the aviation market is expected to continue to witness strong demands alongside an expanding civil fleet. Therefore, the country is adopting the strategy of Modernizing Air Traffic Management (CAAMS) to ensure a smooth transition to the new systems. Moreover, challenges like frequent flight delays and poor coordination have raised the need for more air traffic control reform measures.

COMPETITIVE INSIGHTS

Some of the prominent firms in the market include Leonardo SpA, Northrop Grumman, Honeywell, Raytheon Technologies, Lockheed Martin, etc.

Our report offerings include:

- Explore key findings of the overall market
- Strategic breakdown of market dynamics (Drivers, Restraints, Opportunities, Challenges)
- Market forecasts for a minimum of 9 years, along with 3 years of historical data for all segments, sub-segments, and regions
- Market Segmentation caters to a thorough assessment of key segments with their market estimations
- Geographical Analysis: Assessments of the mentioned regions and country-level segments with their market share
- Key analytics: Porter's Five Forces Analysis, Vendor Landscape, Opportunity Matrix, Key Buying Criteria, etc.
- The competitive landscape is the theoretical explanation of the key companies based on factors, market share, etc.
- Company profiling: A detailed company overview, product/services offered, SCOT analysis, and recent strategic developments
