Report description:

The bottled water category continued to show robust volume growth in 2022. The quality of tap water is poor in Azerbaijan, notably in rural areas, so bottled water is considered an essential product. The importance of hydration is also growing among consumers in line with an increase in general health awareness. Still bottled water continues to drive volume and value sales supported by poor tap water quality in particular regions and the growing demand for mineralised bottled water. Rising unit...

Euromonitor International's Bottled Water in Azerbaijan report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (2017-2021), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they legislative, distribution, packaging or pricing issues. Forecasts to 2026 illustrate how the market is set to change.
