Report description:

The war in Ukraine is having a negative impact, with the resultant energy crisis leading to soaring inflation and dampening sales. As a result, bottled water is expected to register a fall in both retail current value and volume, as consumers economise by drinking tap water instead. All the same, the outlook is expected to be more positive through foodservice channels, with volume sales expected to increase, as society fully opens up post pandemic lockdowns. Returning tourists also support volum...
