Report description:

Despite the easing of most social and mobility restrictions related to the pandemic in 2022 and the greater return to foodservice, demand for food preparation appliances in Chile continues to grow, as local consumers have adapted to hybrid working patterns and are staying at home more often, thereby increasing food preparation opportunities. As these appliances demand lower investment compared to large cooking appliances, Chileans continue to renew and upgrade practical equipment for the kitchen...

Euromonitor International's Food Preparation Appliances in Chile report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2017-2021, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, format trends or distribution issues.
