Report description:

Food preparation appliances witnessed a sharp decline in retail volume sales during 2022. This can primarily be explained by the effects on the category of the easing of the threat and lifting of Coronavirus (COVID-19)-related restrictions. This fostered a shift in household spending away from consumer appliances to activities curtailed by the pandemic, especially as expenditure on experiences, other products and services and travel. The COVID-19 pandemic had served to boost or, in some categori...

Euromonitor International's Food Preparation Appliances in Denmark report offers a comprehensive guide to the size and shape of the market at a national level.
