Report description:

Sales of hot drinks grew significantly in current value terms in 2022, although this was largely due to the unprecedented jump in inflation rates. Prices started growing in the second half of 2021 with consumer prices having been suppressed during the pandemic. Inflation then soared in the first half of 2022 following Russia's invasion of Ukraine, which led to a sharp rise in the price of electricity and natural gas for businesses, which in turn led to a sharp rise in the price of transportation...
