Report description:

Following a strong recovery in 2021, there has been a slowdown in retail volume sales of juice as the category is negatively influenced by lower consumer purchasing power. Price increases and the difficult economic situation has shaken consumers' financial situation. Another restraining factor is Azerbaijan's climate which provides a good all year-round supply of fruits so consumers can easily create their own fresh juices at home rather than buying a pre-prepared one.

Euromonitor International's Juice in Azerbaijan report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (2017-2021), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they legislative, distribution, packaging or pricing issues. Forecasts to 2026 illustrate how the market is set to change.

Product coverage: 100% Juice, Coconut and Other Plant Waters, Juice Drinks (up to 24% Juice), Nectars (25-99% Juice).

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
