- Multiple User License (1 Site) €450.00
- Multiple User License (Global) €675.00

### **Report description:**

The COVID-19 pandemic continued to affect mobility in Malaysia in 2021, resulting in declining passenger car sales, reduced shared mobility value, and a fall in public transport ridership. The impact was, however, temporary, and all categories are expected to see a strong rebound from 2022 onwards. Electric vehicles enjoy special tax exemptions, as the government aims to become carbon neutral by 2050.

Euromonitor International's Mobility in Malaysia report offers a comprehensive guide of the traditional and newly emerging mobility forms. The report is broken down into five key areas of industry research: automotive sales and ownership, electric and alternative fuel vehicles, shared mobility, public transport, and autonomous vehicles and connectivity. It provides the latest automotive sales and registration and shared mobility data over 2015-2020, allowing you to identify the sectors driving growth. It assesses the strategic analysis of key factors influencing the market - be they legislative, consumer lifestyle or economic. Forecasts in the reports are available to 2025.

Product coverage: Car Traffic Volume, Distances Travelled by Mode of Transport, Electric Charging Stations, Fuel Prices, Light Vehicle Sales, Shared Mobility, Vehicle Production, Vehicle Registrations, Vehicles in Use.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- \* Get a detailed picture of the Mobility market;
- \* Pinpoint growth sectors and identify factors driving change;
- \* Understand the competitive environment, the market's major players and leading brands;
- \* Use five-year forecasts to assess how the market is predicted to develop.
