Report description:

Personal care appliances continued to register very positive sales growth during 2022, albeit at a more muted pace than a very strong growth rates recorded in the category at the peak of the COVID-19 pandemic during 2020 and 2021. In particular, growth was driven by rising demand in the two largest categories of hair care appliances and body shavers and this is linked to the unavailability of beauty salons and hairdressing salons for an extended period during the pandemic as measures designed to...
