Report description:

While most other consumer appliances suffered steep declines in 2022 there was contrasting fortunes for personal care appliances, with strong demand being seen for body shavers and hair care appliances. Volume sales of these categories declined during the pandemic as consumers spent more time at home and thus personal appearance was less of a priority. However, as life began returning to relative normality in 2022 with consumers returning to the workplace and socialising more there was a renewed...

Euromonitor International's Personal Care Appliances in Sweden report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2017-2021, allowing you to identify the sectors driving growth.
