Report description:

Small cooking appliances recorded positive sales growth again during 2022 and this is largely a reflection of the elevated interest in cooking at home that has been seen among the population of Poland since the onset of the COVID-19 pandemic. Preparing elaborate and impressive meals from scratch at home using fresh ingredients became a very popular hobby during the period of social distancing and home seclusion that was seen in Poland at the height of the pandemic and initially this was a necessity...

Euromonitor International's Small Cooking Appliances in Poland report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2017-2021, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, format trends or distribution issues.
