Report description:

Store cards have a negligible presence in Vietnam with there being little interest or awareness of these card products. Furthermore, the government strictly controls the supply of credit in Vietnam which makes it a complicated and lengthy process to offer store cards, which dissuades operators from offering these products. Given the wide range of alternative financial cards available it is unlikely there will be any significant appetite for store cards over the forecast period in Vietnam.

Euromonitor International's Store Card Transactions in Vietnam report establishes the size and structure of the market for ATMs cards, smart cards, credit cards, debit cards, charge cards, pre-paid cards and store cards. It looks at key players in the market (issuers and operators), number of cards in circulation, numbers transactions and value of transactions. It offers strategic analysis of sector forecasts and trends to watch.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
