Report description:

Amidst surging COVID-19 infections, many cities went back into lockdown in 2022, along with enhanced mobility restrictions, which caused serious disruption to distribution. In 2022, some consumers were having difficulty purchasing fresh vegetables on shelves in major cities due to logistics shortages and panic-buying.

Euromonitor International's Vegetables in China report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data in volume terms 2017-2021, allowing you to identify the sectors driving growth. It offers strategic analysis of key factors influencing the market - be they new product developments, consumption patterns and distribution data. Forecasts to 2026 illustrate how the market is set to change.

Product coverage: Cauliflowers and broccoli, Maize, Onion, Other Vegetables, Tomatoes.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- * Get a detailed picture of the Vegetables market;
- * Pinpoint growth sectors and identify factors driving change;
- * Understand the competitive environment, the market's major players and leading brands;
- * Use five-year forecasts to assess how the market is predicted to develop.

Euromonitor International has over 40 years' experience of publishing market research reports, business reference books and online information systems.
