### **Report description:**

Demand for milk formula increased in 2021, driven by demand for growing-up milk formula and special baby milk formula, benefiting from the fact that paediatricians in Mexico are increasingly recommending and prescribing special baby milk formula not only to treat specific conditions like lactose intolerance, allergies, acid reflux or diarrhoea, but also to reduce the likelihood of infants developing such ailments in the first place. This was benefiting the packaging unit volumes of metal tins an...

Euromonitor International's Baby Food Packaging in Mexico report offers insight into key trends and developments driving packaging across the category.
