### **Report description:**

While bottled water had been registering healthy growth over the review period, the pandemic lockdowns in 2020 led to a contraction in off-trade volume sales. With people spending significant time at home, they drank tap water instead, which is of good quality in Lithuania. By 2022, with society opening up fully, bottled water registered a strong recovery. Recovery was also helped by the warm weather seen over the summer months, which also helped to boost on the go consumption and smaller, more...
