Report description:

Sugar confectionery was negatively impacted by the COVID-19 pandemic, as many products in this category are targeted at children. With fewer opportunities to leave the house, with children confined to home seclusion for extended periods, impulse purchases of sugary treats by parents for their children were much less common in 2020, with this trend continuing in 2021, to an extent.

Euromonitor International's Confectionery Packaging in Indonesia report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Product coverage: Chocolate Confectionery, Gum, Sugar Confectionery.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
