### **Report description:**

After a strong performance in 2021, both retail volume and retail constant value sales (2022 prices) of consumer appliances slowed significantly in 2022, as mounting inflationary pressure led a growing number of local consumers to rein in their discretionary spending and delay big-ticket purchases. The war in Ukraine was a major factor in this, as it drove a surge in commodity prices, which exacerbated lingering supply-chain constraints from the pandemic, most notably a shortage of semiconductor...
