Report description:

Processed meat was back in decline in 2021, as, during the latter half of 2021, with restrictions beginning to ease, the consumption of processed meat among French households was falling. This negatively impacted the unit volumes of thin wall plastic containers, flexible plastic, other plastic trays, folding cartons and blister and strip packs used in the packaging of processed meat in 2021, most of which had been growing a year earlier.

Euromonitor International's Processed Meat and Seafood Packaging in France report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Product coverage: Meat and seafood substitutes inc Tofu, Processed Meat, Processed Seafood.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
