Report description:

Refrigeration appliances is seeing declines in 2022, following a period of growth during the era of the pandemic while consumers spent more time at home and thus paid more attention to their household environments and appliances. Within this environment, many consumers replaced their existing refrigeration appliances or purchased second products. Furthermore, during the lockdown, the demand for additional frozen storage space also increased as grocery shopping trips became less frequent due to r...

Euromonitor International's Refrigeration Appliances in Turkey report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2017-2021, allowing you to identify the sectors driving growth.
