Report description:

Small cooking appliances is set to fare better than food preparation appliances in 2022; nevertheless, it is still expected to witness a strong decline in retail volume terms. Many categories saw a spike in sales in 2020, and to a lesser extent in 2021, but as consumers' lifestyles and spending continued to normalise in 2022 as the pandemic eased, spending on small cooking appliances is also set to normalise. With more options for out-of-home spending, and as British consumers equipped themselves...
