Report description:

Sugar confectionery saw a static performance in volume terms in 2022, following a two-year period of decline. Growth continued to be impacted by growing levels of health consciousness, with consumers becoming more concerned about their sugar intake. This trend was exacerbated by the pandemic, as obesity is a major risk factor for poor COVID-19 outcomes. Besides this, parents were increasingly concerned about their children's teeth and therefore tried to avoid purchasing too much sugar confectionery...
