- Enterprise Price \$5000.00

Report description:

The antimicrobial coatings for medical devices market in Europe is expected to grow from US\$ 519.14 million in 2022 to US\$ 1,086.64 million by 2028. It is estimated to record a CAGR of 13.1% from 2022 to 2028.

Burgeoning Use of and Demand for Medical Implants

With the increasing number of medical procedures and demand for advanced devices, the threat of high-risk infections from

Scotts International. EU Vat number: PL 6772247784

tel. 0048 603 394 346 e-mail: support@scotts-international.com

www.scotts-international.com

superbugs, such as MRSA, Clostridium difficile, and Pseudomonas aeruginosa, is also increasing. Implant-associated infections (IAIs) are leading to a large number of deaths and high medical costs. The number of knee and hip implant surgeries performed every year is increasing with the surging prevalence of osteoarthritis and other similar conditions. Patients with osteosynthetic implants around the hip and knee show higher infection rates after joint arthroplasty. The "Clinically Asymptomatic Patients Show a High Bacterial Colonization Rate of Osteosynthetic Implants Around the Knee but Not the Hip" study, published in the National Library of Medicine (NLM) in 2019, revealed that staphylococci are the most common causative agents of periprosthetic joint infections. Antimicrobial coating of medical devices and equipment appears to be the most proficient means of improving infection control in a healthcare setting. A wide variety of coating technologies and antimicrobial agents are available for medical devices and surgical implants.

Market Overview

The Europe antimicrobial coatings for medical devices market is subsegmented into Germany, the UK, France, Italy, Spain, and the Rest of Europe. Germany and the UK are among the most significant contributors to the market in this region due to the increased prevalence of implant surgeries, whereas France and Italy are estimated to be the fastest-growing markets for antimicrobial coatings for medical devices. The market growth in these countries is attributed to the availability of the best healthcare facilities and a surge in healthcare expenditure in these countries.

Europe Antimicrobial Coatings for Medical Devices Market Revenue and Forecast to 2028 (US\$ Million)

Europe Antimicrobial Coatings for Medical Devices Market Segmentation

The Europe antimicrobial coatings for medical devices market is segmented into coating type, device type, material, application, and end user.

Based on coating type, the market is segmented into antibacterial coatings, antiviral coatings, and others. The antibacterial coatings segment registered the largest market share in 2022. Based on device type, the market is categorized into catheters, implantable devices, surgical instruments, and other devices. The catheters segment held the largest market share in 2022. Based on material, the market is categorized into metallic coatings and non-metallic coatings. The metallic coatings segment held the largest market share in 2022. Based on application, the market is categorized into general surgery, cardiovascular, orthopedics, gynecology, dentistry, and other applications. The general surgery segment held the largest market share in 2022. Based on end user, the market is categorized into hospitals and clinics, diagnostic centers, ambulatory surgical centers, and others. The hospitals and clinics segment held the largest market share in 2022. Based on country, the market is segmented into Germany, Italy, the UK, Spain, Russia, France, and the Rest of Europe. Germany dominated the market in 2022. The Dow Chemical Company; PPG Industries, Inc.; Microban International; Covalon Technologies Ltd.; DSM; Specialty Coating Systems Inc.; and BioInteractions are among the leading companies operating in the antimicrobial coatings for medical devices market in the region.

Table of Contents:

1. Introduction
- 1.1 Scope of the Study
- 1.2 The Insight Partners Research Report Guidance
- 1.3 Market Segmentation
- 1.3.1 Europe Antimicrobial Coatings for Medical Devices Market - By Coating Type
- 1.3.2 Europe Antimicrobial Coatings for Medical Devices Market - By Device Type
- 1.3.3 Europe Antimicrobial Coatings for Medical Devices Market - By Material
- 1.3.4 Europe Antimicrobial Coatings for Medical Devices Market - By Application
