Report description:

The fire pump controllers market in Asia Pacific is expected to grow from US\$ 896.20 million in 2022 to US\$ 1,341.69 million by 2028. It is estimated to grow at a CAGR of 7.0% from 2022 to 2028.

Growing Technological Advancement and Adoption of Fire Safety Systems

Fire safety is important in residential and commercial buildings, such as hospitals and offices. The facility managers should focus their fire protection strategies on the maintenance of existing technologies and identify the requirement for system upgradation. Further, the internet of things (IoT) is driving the evolution of fire safety systems. The technology can also be integrated with mass notification, making it smarter, thereby providing proactive inspections and faster response time. The new mobile fire pumps are designed to replace fixed fire water pumps. Thus, the technological advancements and adoption of such fire safety systems will further create a lucrative opportunity for the growth of the fire pump controllers market.

Market Overview

The APAC fire pump controller market is segmented into Australia, China, India, Japan, South Korea, and rest of APAC. The rising industrialization across countries such as India, Malaysia, Indonesia, Singapore, Taiwan, and China are one of the major factors generating new demands for the installation of industrial pumps and controller systems across Asia Pacific countries. Further, the region comprises three of the top five construction market countries worldwide, i.e., China, India, and Indonesia. These countries generate constant demand for the installation of fire protection systems during the construction of residential buildings, commercial buildings, and industrial facilities. Moreover, the growth in the demand for industrial construction and digitalization of

the industrial sector across Asia Pacific countries is adding impetus to the fire pumps and controller systems market expansion. For instance, the expansion of many manufacturing facilities in emerging countries such as India, Taiwan, and Southeast Asian countries is driving the deployment of fire pump and controller systems across the region. One of the major contributors to the Asia Pacific fire pump controllers market is the presence of manufacturing hub China, wherein the country supplies various components and products to several industries and manufacturing sectors.

Asia Pacific Fire Pump Controllers Market Revenue and Forecast to 2028 (US\$ Million)

Asia Pacific Fire Pump Controllers Market Segmentation

The Asia Pacific fire pump controllers market is segmented into type, end user, and country.

Based on type, the market is bifurcated into electric fire pump controller and diesel fire pump controller. The electric fire pump controller segment registered the larger market share in 2022.

Based on end user the market is segmented into industrial, commercial, and residential. The industrial segment held the largest market share in 2022.

Based on country, the market is segmented into Australia, China, India, Japan, South Korea, and the Rest of Asia Pacific. China dominated the market share in 2022.

ComAp AS, Eaton Corp Plc, Firetrol Inc, Flowserve Corp, Grundfos Holding AS, Hubbell Inc, Master Control Systems Inc, NAFFCO FZCO, Pentair Plc, and Tornatech Inc are the leading companies operating in the fire pump controllers market in the region.
